

## When I See My Crew

When I see my crew  
I am going to hug them all so tight  
I will make sure they know how much I love them  
How much I missed them  
I will never take for granted the long car rides  
Talking in circles  
Driving in circles  
Hanging after meeting

When I see my crew  
I will be hysterically happy  
I will laugh like a hyena  
We will watch movies  
Exchange clothes and household items  
Eat food  
Dance and sing like goons

When I see my crew  
We will get coffees we cannot afford  
We will go to back-to-back meetings face-to-face  
Eat sushi and pad thai and pizza and ice cream  
Walk along the river without a mask and without spacing six feet apart

When I see my crew  
It will be a happy day indeed  
No more virus  
Less fear  
More joy  
Until then I have my Netflix to keep me warm.
